Plus there are four styles of white ceramic mugs with images paired with messages.

And my <https://www.hempearthart.com/> store has many more items such as t-shirts, tumblers, pillows, baby onesies and more that can be printed with many different bits of my art, but no guarantee when they will be shipped as the holiday season is in full swing now.

Journals have black and white interiors and sell for \$15.00 each, including tax. These 6" x 9" books can be shipped for \$5.00, or two to one address for \$6.00.

All of the 6" x 9" journals start with introductory pages with information to help inspire you to use them.

There are prompts about what to write about and areas to journal and sketch.

These journals are not just pretty covers with blank pages inside.

Sample pages are seen next to or below their covers.

The Monthly Dream Journal works best for those who are just beginning to interpret their dreams. The 12 Week Dream Journal works best for more advanced dreamers.

Be aware, I only have 1 of each of the Zodiac Signs at my home.

These 6" x 9" Weekly Planners have dual purposes.

You can use them to keep track of your weekly plans and do some journaling.

The sample pages are similar to how they look in each planner.

Images in both types of planners are matched with inspirational quotes.

All start with 2 pages with a year at a glance calendar and places to keep track of important dates.

Each one ends with a shorter version of the pages for January 2021.

Each month starts with a large image, then the 2 page spreads for weekly pages start on Monday.

The "Garden Flowers Planner" has beautiful flower at the beginning of each month and more sprinkled throughout the planner. It has areas to write up or sketch ideas for your garden and places to note tasks to get done to create a beautiful garden.

The "Reflections Planner" images of Nature reflected in water to contemplate and find peace.

It can be used to set goals for the year, and track how you progress each week.

This one comes in either full color, or a black and white version of the same images.

Color Planner are \$25.00 each & the BW Reflections is \$15.00, including tax.

Any 6" x 9" book can be shipped for \$5.00, or two to one address for \$6.00.

These 6" x 9" books about tree squirrels and ground squirrels are filled with colorful images of these adorable wild creatures. They are fun to read. Each book will teach kids about the life of squirrels around the world and help them add some new words to their vocabulary. Any 6" x 9" book can be shipped for \$5.00, or two to one address for \$6.00.

Sadly, neither of the Coloring and Activity Books are available at my home until after Christmas. If you ordered copies on Amazon, they will have a good chance to arrive before the holiday.

I have created many styles of bridge card sized playing card decks.

Each deck sells for \$16.00.

One deck can be shipped for \$5.00, or 2 decks for \$6.00 to one address.

Or one or two decks can be shipped with a 6" x 9" journal for \$6.00 to the same address.

The card decks on this page were created for children to make playing games such as "Concentration" or "Go Fish" more enjoyable than if using a deck with just numbers.

It will be much more fun to ask, "Do you have any columbines?" instead of "Got any tens?"

And the visual distinction of the wildflowers or Nature images makes "Concentration" easier for younger children to enjoy playing and will increase their memory.

Girls particularly enjoy playing with the ones that have images of wildflowers.

While boys seem to prefer the deck that with Nature images of things you might see on a hike.

They include a tiny card with instructions on how to play the games and a link to web site to download an easier to read set of instructions for these games and one more game played in the past.

"Wildflowers Besides a Brick Wall"

"Wildflowers Among the Aspens"

"Take A Hike"

Many people who saw the kid's versions of the wildflower decks asked me to create one they could play all types of card games with that required numbers, the royal family and jokers.

So I created a numbered deck with wildflowers, and that was the beginning of this series of numbered card decks with different images.

The Garden Flower deck pictured here may have a few different flowers, as I started it with this same size of numbers as on the other decks, then had a request for a deck with larger numbers.

In the future, all the decks I create will have larger numbers, but most now have numbers in the corners the size most playing decks use. But without the numbers inside, but have been told they are not as easy for older folks to read, even with glasses.

Kids of all ages love playing with the "Squirrel Numbered Card Deck" to have more fun images that will make everyone smile.

The "Garden of the Gods" deck is the perfect reminder of why you live in Colorado or as a memory for visitors who live far away.

If you, or someone you know collects unique card decks, consider adding one of these to that collection this holliday season.

"Garden Flower Numbered Deck"

"Garden of the Gods Numbered Deck"

"Squirrels Numbered Card Deck"

I created 2 styles of Tarot sized card decks have 36 different cards in each deck.
 Each deck sells for \$16.00.
 They can be shipped for \$5.00.
 Or one deck and a 6" x 9" journal can be shipped together
 for \$6.00 to the same address.

One is based on Gratitude Quotes and has beautiful images found in Nature.

Expressing gratitude on a daily basis is one way to change attitude to a very positive way of thinking which will change your outlook on life.

These quotes are the same ones found in the "Gratitude Journal" and work well together to carry with you for the week you are focusing on such a positive thought.

The other deck has colorized images of sand that I photographed on Oregon beaches. They have marblize look to them. Each one has a positive affirmation to begin your day. The back of each card has the phrase you might want to focus on before reading the card for that day.

"This or something Better, now manifest for me in a totally satisfying and harmonious ways for the highest good for all concerned."

One more book that may interest folks in the Pikes Peak Region that have memories of the Waldo Canyon Fire in 2012 and floods that plagued the region in 2013.

It is 260 pages filled with the history of these events and color images taken by myself and other friends. So it is not a small book, and will sell from my home at \$30.00 or online and at Commonwealth, it is \$39.97.

One friend shared images that he was able to capture from his balcony miles away from the Waldo Canyon fire from its start and for many days as it burned.

The book talks about how the communities came together to restore the areas that were harmed by fire or flooding. It also has stories from people that the flooding affected them in many ways.

At the end, there are sections about how to prepare for experiencing, and surviving a natural disaster you might find yourself facing at some future time.
